

Who Should Attend?

- ♦ Planning Practitioners
- ♦ State Agency Staff
- ♦ UW-Extension Educators
- ♦ Non-profit Leaders
- ♦ Resource Professionals
- ♦ ...And others who help assist citizen planners and local decision-makers.

Why attend?

This is your chance to help the DNR and others working with citizen groups evaluate a variety of planning tools.

At this workshop, you will learn about tools for predicting land use impacts and help technical assistance providers evaluate the relevance of these tools to citizen planning activities.

The first day will be an interactive introduction to various tools.

The second day will be a working meeting that includes an evaluation exercise for those that wish to influence future technology transfer around the state.
